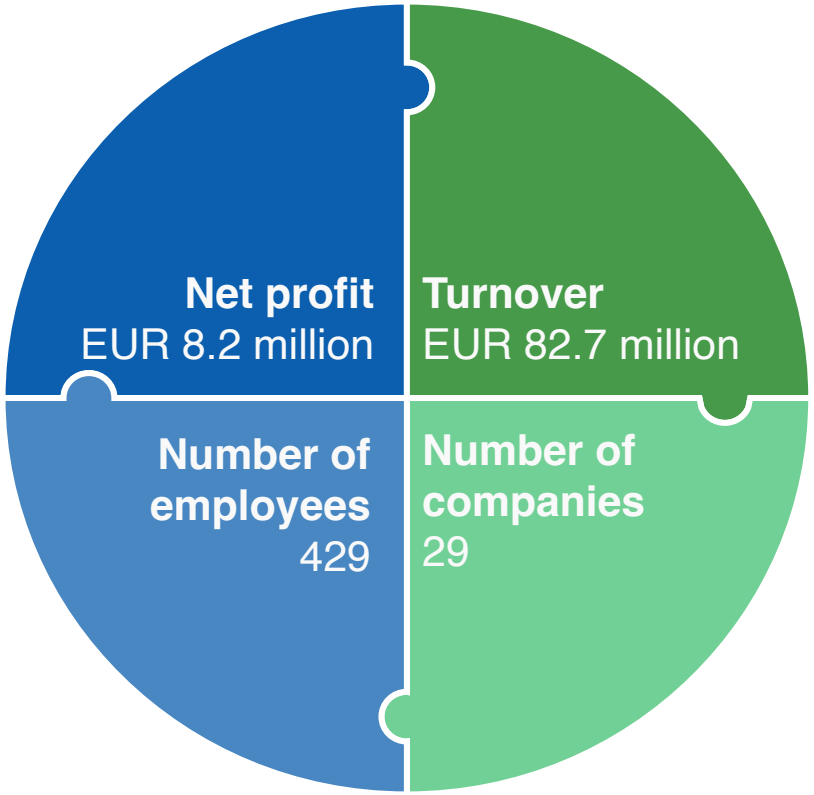
1.1 Industry Overview

(2024)



- This study aims to provide an overview (in terms of turnover, workforce, profitability, etc.) of the evolution of the local fintech industry to identify the main opportunities, risks, and trends in stagflation conditions.
- We define the local Fintech Industry as being comprised of the 29 members of the Romanian Fintech Association. From the 2025 edition 2 companies were excluded: EUROPEAN DIGITAL EXCHANGE SA and ASSETTO CONCEPT SRL, whereas another 8 were added: SUNTIO IDENTITY SRL, FILBO PAY SA, IFONDURI FINTECH SA, EAZY ASIGURARI SA – the only insurer analysed where Total Revenues were included instead of the Turnover, STOCKESTATE CROWDFUNDING SRL – company that provided their own figures for this study, I-TOM SOLUTIONS SRL, TOKEN PAYMENT SERVICES SRL and SYNDIFI CROWD PLATFORM SRL).
- The data used throughout this study is the financial, annual, aggregated data reported by the companies to the Ministry of Finance (end of period). All figures are expressed in EUR if not provided otherwise and the exchange rate is the official, annual, average NBR rate (B/bn=billion, M/mil=million, K=thousands).

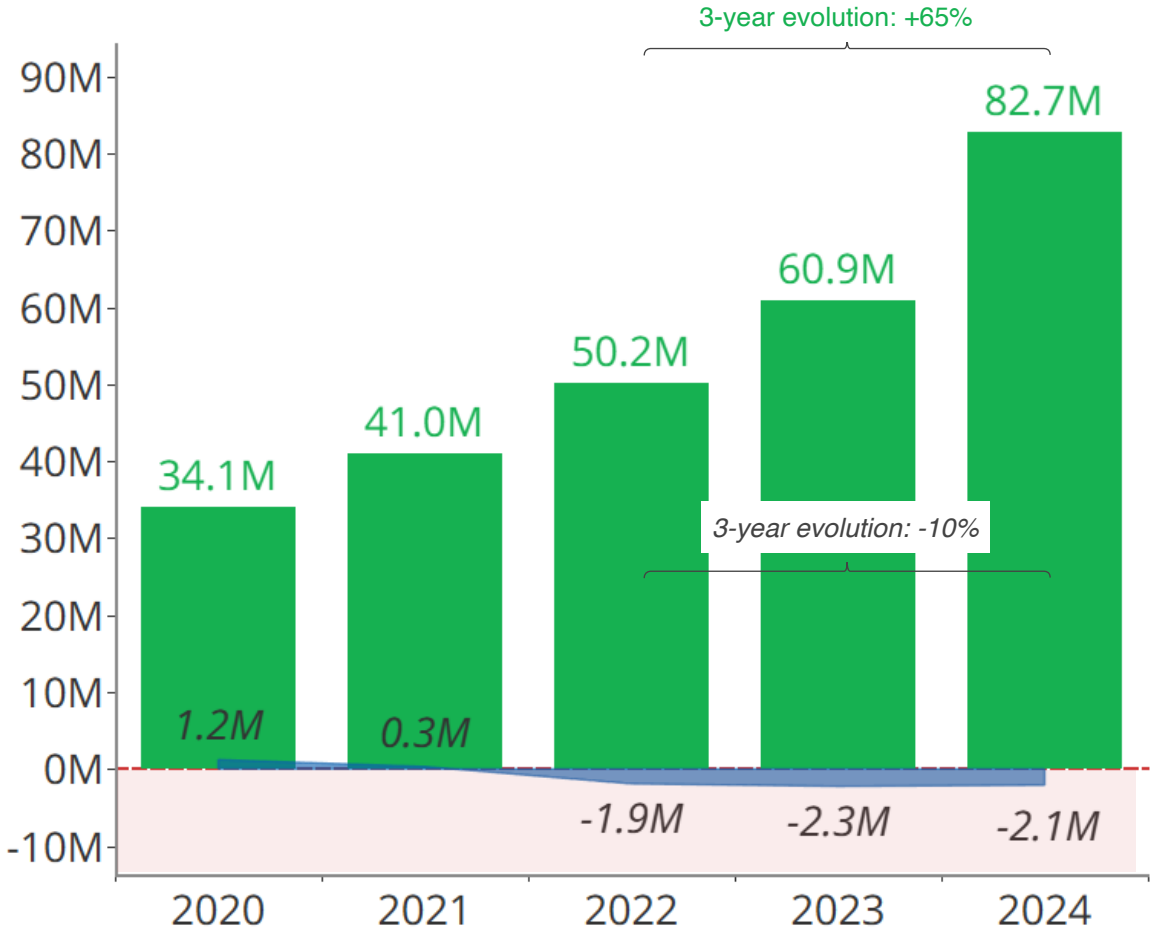
2.1 Industry Turnover & *Net Result* evolution

(M=million EUR)

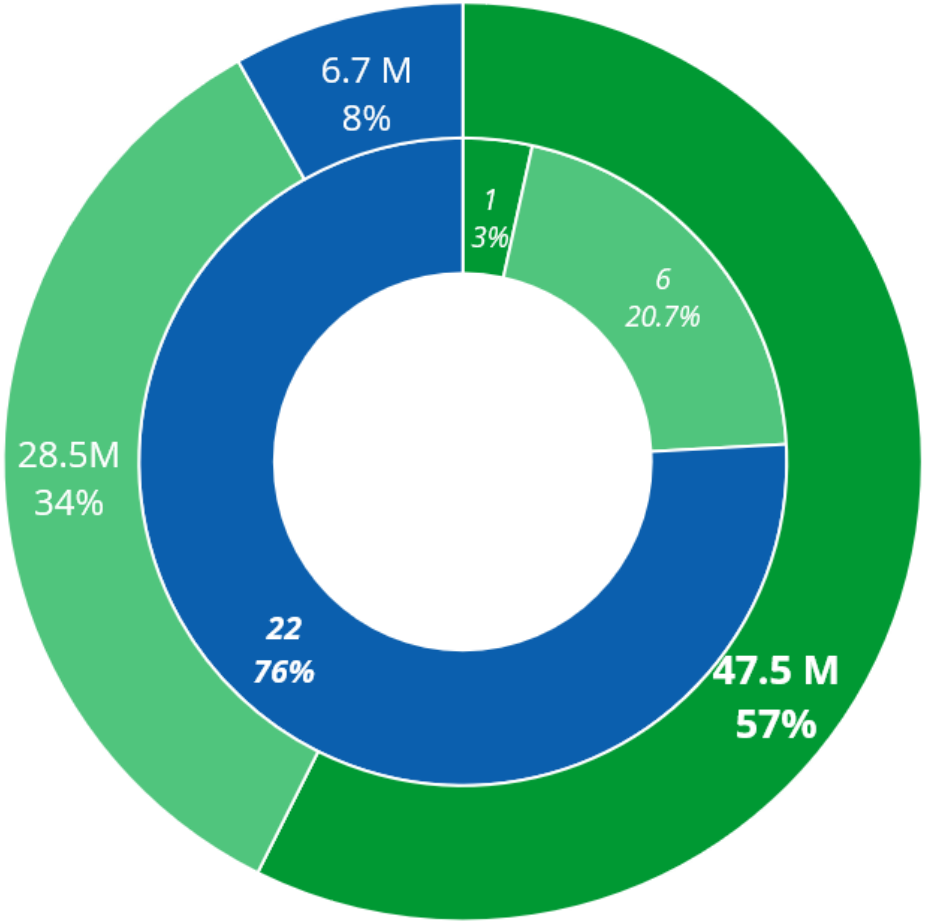


- The turnover of local fintech companies increased by 36% when compared to 2023 and was 143% higher than in 2020, to the record level of EUR 82.7 million in 2024, according to the data extracted in March 2026.
- For 2025, we estimate the turnover of the fintech companies to continue to increase, if not exceed, the EUR 95 million threshold.
- The fintech industry overall net result (*net profit minus net loss*) increased by 6% when compared to 2023 but was 276% lower than in 2020, at a loss of EUR 2.1 million in 2024.

March 2026 © Copyright KeysFin. All rights reserved

2.2 Distribution by company type

(by Turnover, M=million EUR and *Number of companies*, 2024)



- The local fintech industry comprised in 2024 of 29 companies, of which 1 medium, 6 small and 22 micro enterprises.
- The largest share of the turnover, of 57% (EUR 47.5 million) was generated by the medium company, whereas the micro entities registered 8% of total in 2024.
- However, 3 companies (10%) recorded a null turnover in 2024.

COMPANY TYPE	NUMBER OF EMPLOYEES		TURNOVER* (euro)		TOTAL ASSETS* (euro)
corporate	≥250	&	> 50 M	or	> 43 M
medium	<250	&	≤ 50 M	or	≤ 43 M
small	<50	&	≤ 10 M	or	≤ 43 M
micro	<10	&	≤ 2 M	or	≤ 2 M

**In case of inconsistencies, the Turnover prevails*

Romanian Fintech Industry (Conclusions)

▪The turnover of local fintech companies increased by 36% when compared to 2023 and was 143% higher than in 2020, to the record level of EUR 82.7 million in 2024, according to the data extracted in March 2026.

▪For 2025, we estimate the turnover of the fintech companies to continue to increase, if not exceed, the EUR 95 million threshold.

▪The fintech industry overall net result (*net profit minus net loss*) increased by 6% when compared to 2023 but was 276% lower than in 2020, at a loss of EUR 2.1 million in 2024.

▪The local fintech industry comprised in 2024 of 29 companies, of which 1 medium, 6 small and 22 micro enterprises.

▪The largest share of the turnover, of 57% (EUR 47.5 million) was generated by the medium company, whereas the micro entities registered 8% of total in 2024. However, 3 companies (10%) recorded a null turnover in 2024.

▪From the fintech county perspective, Bucharest leads with a turnover of EUR 68.4 million and accounted for 83% of total in 2024. Cluj (7.9%), Ilfov (5.8%), Prahova (3.5%) and Iasi (0.1%) were next. Together, the first 5 counties generated 99.9% (EUR 82.6 million) of the overall national turnover in 2024.

▪SELFPAY SA remained the largest fintech in Romania with a turnover of almost EUR 47.5 million (57% of the total) following the largest annual nominal increase in top 5 of EUR 10 million in 2024. EAZY ASIGURARI SA was second with Total Revenues of EUR 8.8 million, and LIFE IS HARD SA ranked down to third place after the largest annual percentage & nominal decreases of 14%, respectively minus EUR 873 K to EUR 5.3 million. Together, the 5 largest fintech companies generated 86% of the local turnover in 2024.

▪The number of fintech companies that reported their annual results increased by 12% from 2022 and was 53% higher than in 2020, at a record level of 29 in 2024.

▪The fintech workforce increased by 3% from 2023 and was 160% higher than in 2020, at 429 employees in 2024.

▪By company type, the small companies were the largest employers with 220 employees (51% of total), whereas the micro entities hired 21% of the total in 2024.

▪On the other hand, 4 fintech companies (14%) had no employees in 2024.

▪SELFPAY SA (the largest fintech by turnover) became the biggest employer with a personnel of 119 (28% of the total). It was followed by LIFE IS HARD SA which ranked down to second following the largest annual nominal decrease of the labour force (minus 18), to 110 employees in 2024. The top 5 companies by turnover had a workforce of 301, representing 70% of the total in 2024.

▪Of the 29 companies analysed, only 12 registered profit (41%), while the rest reported losses in 2024.

▪By company type, the medium company was the most profitable with EUR 6.5 million, whereas the small and micro entities generated losses in 2024.

▪SELFPAY SA (leader by turnover) recorded the largest net profit of EUR 6.5M after the largest annual nominal increase in top 5 of EUR 4.3 million in 2024. BOLD TEHNOLOGIES SRL was second, with a profit of EUR 328K, followed by SYMPHOPAY SRL, with EUR 286K in 2024. The top 5 companies recorded a cumulative net profit of EUR 7.6 million, respectively 92% of the total in 2024.
